KO.OP is a collaborative platform designed to help teams manage projects, tasks, and communication in a streamlined digital workspace. It features dashboard navigation, team task management, messaging, Gantt charts, a calendar, and social connections, supporting efficient teamwork and organization for both academic and professional groups.

Dashboard

KO.OP

The dashboard features a dark blue header with the "KO.OP" logo. Below the header is a light gray sidebar containing the following items:

- Dashboard (selected)
- Messages
- Team Tasks
- Gant Chart
- Calendar
- Logout

The main center area is divided into several sections:

- Collaborative works**: Three cards representing different projects:
 - Webdev**: Shows a yellow lightbulb icon.
 - Application**: Shows a person at a computer icon.
 - Ideathon**: Shows a circular icon with various icons like gears, a checkmark, and a question mark.
- Recently opened**: Four cards showing recent activity:
 - A calendar icon with the number 31, labeled "2 mins ago".
 - A document with a gear icon, labeled "40 mins ago".
 - A chart with a key icon, labeled "2 hrs ago".
 - A person icon with a checkmark, labeled "2 hrs".
- A top-right corner with a "LIGHT" button, a bell icon, and a red circular icon.
- A right sidebar titled "Friends:" listing ten team members with their names and small profile pictures:
 - Matthew Jompilla
 - Krishna Agojo
 - Simon Umadac
 - Keith Yves Robles
 - Juliane Caballes
 - CJ Cabase
 - Chan De Ocampo
 - Adrienne Pagaran
 - Mark Zuckerberg
 - Marc Ace Legaspi
 - Edison Esberto
 - Anj Jaurigue

The KO.OP dashboard uses a clear, sectioned layout for easy navigation and team collaboration. Its sidebar groups core features, while the top-center shows current projects with cards and avatars, immediately highlighting team activity. A "Recently opened" area and color-coded cards provide fast context, and the right sidebar's friend list and avatars streamline communication for effective, frictionless teamwork.

Dashboard

Screenshots of individual projects from the dashboard tab

The image displays four separate screenshots of a project management application interface, likely the 'KO.OP' dashboard. Each screenshot shows a different project or group view.

- Webdev Project View:** Shows a 'Project Progress' bar at 58% Complete. It lists tasks under 'DONE', 'IN PROGRESS', and 'TO DO' categories. For example, 'Develop API' is marked as 'Done' with a status of 'High Priority'. A message from 'Matthew Jompilla' is visible on the right.
- Application Project View:** Shows a 'Project Progress' bar at 58% Complete. It lists tasks under 'DONE', 'IN PROGRESS', and 'TO DO' categories. For example, 'Develop API' is marked as 'Done' with a status of 'High Priority'. A message from 'Matthew Jompilla' is visible on the right.
- Ideathon Project View:** Shows a 'Project Progress' bar at 58% Complete. It lists tasks under 'DONE', 'IN PROGRESS', and 'TO DO' categories. For example, 'Develop API' is marked as 'Done' with a status of 'High Priority'. A message from 'Matthew Jompilla' is visible on the right.
- Webdev Group Chat View:** Shows a 'Webdev Group' chat interface. It includes a 'Messages' section with messages from 'Matthew Jompilla' and 'Simon Umadac', and a 'Team Tasks' section showing task status and details. A message from 'Matthew Jompilla' is visible on the right.

Messages

This **KO.OP** Messages frame is designed to streamline team communication, featuring a large central area for composing and reading messages, and a top field for selecting recipients by name or email. On the right, panels for Recent Messages and All Chats help users quickly access conversations, while profile avatars and online indicators provide instant awareness of team activity, all within a clean, organized, and user-friendly interface intended to support efficient, focused teamwork.

Create Task

This Team Tasks frame organizes assignments by week, showing task names, assignees via profile avatars, and clear status labels such as “Done,” “Ongoing,” or “Not Started” for quick progress tracking. To the right, there’s a section for recently completed tasks, displaying task names, completion times or dates, and involved members for easy reference. Below that, users can quickly create new tasks, categorize them with tags, and add members, making ongoing project management efficient and visually accessible.

Not Started

This Team Tasks Chart visualizes project timelines and progress using a horizontal Gantt chart format, where each task appears as a colored bar across dates in the week. Status labels like "Done," "On Going," and "Not Started" are color-coded and aligned with each task, enabling instant recognition of each project's phase relative to the selected date, helping teams coordinate schedules and deadlines with clarity. The top displays date selectors for week navigation, allowing users to focus on specific time frames for planning and tracking deliverables.

Calendar

The screenshot displays the KO.OP calendar interface. On the left, a sidebar menu includes links for Dashboard, Messages, Team Tasks, Gant Chart, and Calendar (which is highlighted with a white background). The main area shows a monthly calendar for October, with days from 1 to 31. Navigation arrows for switching months are at the top left, and a plus sign button is at the top right. A bell icon and a red circular notification badge are in the top right corner. To the right of the main calendar, there are three smaller windows showing a date selection dialog for April, a date range for April, and a message "2024 calendar coming soon".

SUN	MON	TUE	WED	THU	FRI	SAT
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25

2024 calendar coming soon

This **Calendar** frame provides a straightforward month-view layout, letting users see all days in October at a glance with clear navigation to move between months or add events using the plus button. Each date is given its own large cell, making it easy to visually map deadlines or events across the month, and the right-hand side hints at upcoming features and supports for future calendars. This simple and expandable design helps users plan, track, and manage schedules in sync with their team's workflow.

Dark Mode

Yes KO.OP got dark mode too

Top bar

The **KO.OP** top bar includes a notifications bell for real-time team alerts and a profile picture with a dropdown for quick access to profile, settings, and logout actions, helping users stay organized and manage their account efficiently.
